FRAUD OPERATIONS / PRESENTATION EXHIBIT

Analyst review referral

A fictional scenario prompt for demonstrating FraudShield case review.

SYNTHETIC TRAINING SCENARIO · NOT A REAL CUSTOMER OR FRAUD FINDING

Referral summary

Four transactions totaling USD 8,601.25 were recorded at merchant M-DEMO-14 between 09:02 and 09:44 UTC. Three customer IDs are linked to device D-DEMO-77. Customer C-DEMO-101 has two transactions on account A-DEMO-101.

Suggested walkthrough

Step	Review action
01	Open an imported case and confirm its transaction details.
02	Open Fraud graph and follow the shared device connection.
03	Run the investigation and review the saved outcome and evidence.

This referral is synthetic and does not establish that fraud occurred. The CSV intentionally leaves the fraud label blank.
